## **What is Sysco's Pop Up Stock Up?**

Sysco is providing you with an alternate, temporary business model during the coronavirus pandemic. Join by hosting a special one-day event where customers can pre-order and pick up full foodservice-sized cases of restaurant-quality products curbside for a contact-less transaction. Sysco has plenty of inventory and products to help your customers meet the demands and needs that are lacking from their local grocery stores. Many stores are out of pantry staples, and Sysco can help offer these to your customers. Stock Up Shop products can vary by location but will include commodities such as steak, ground beef, pork tenderloin, etc.

## What do I need to participate in Sysco's Stock Up Concept?

- An online presence to be able to market the one day event, including a phone number and/or online ordering platform to take orders.
- Staff to work the event and staff to regulate local municipality guidelines (social distancing).
- Ordering/payment tools.
- Communication plan, Sysco will provide you with a Stock Up Toolkit including marketing tools and social media outlets, to drive the message effectively to your customers!
